Harshita Jhamtani
FURNITURE & LIGHTING

Length Breadth Height x Harshita Jhamtani Designs come together to make a series of objects collectively called 'Not your Ordinary'.

Both LBH and HJD work with natural materials and capture handmade, timeless pieces that focus on craftsmanship with designs that are simpler in form.

Over the last few years, we both have developed our styles and identities through our products but when we decided to work together, we wanted a banner under which we can break free from the identity of our existing brands and go crazy but still highlighting our design styles.

'Not your Ordinary' is a collection that is a collaboration not just of two minds but also the craftsmanship of our teams that we have perfected for years. A collection that challenged both our natural instincts and has beautifully come together in a series of objects that makes you question the ordinary.

DUNE
