Vedang Agnihotri
Gradient India

Gradient India began in 2020 as an exploration by graphic designer-turned-artist. What started as a wall-art studio has evolved into a bespoke art and design practice — creating pieces that are tactile, expressive and made to become part of the spaces they inhabit.

THE DESIGNERS

CRIO

Vishwa Patel and Yayati Patel

Founded in Mumbai in 2019, is a design studio creating sculptural lighting, furniture, objects, and site-specific installations.
Working across clay, natural stone, metal, and reclaimed mineral waste, the studio creates tactile, enduring pieces with intention.

Founded in 2018 by siblings Vishwa Patel and Yayati Patel, Crio is a multidisciplinary design studio working primarily with concrete.
Its slow, small-batch process brings modern, minimal, and enduring design into contemporary spaces.

LBH is a contemporary Indian design studio based in Pune, working at the intersection of material research and spatial experience. The studio focuses on lighting and furniture exploring proportion, tactility, and structural clarity.

Rutva Joshi
Rutva Joshi Designs

Working across paintings, murals, sculptures and installations, the studio explores craftsmanship, materiality, narrative and space. Traditional techniques and indigenous crafts are reinterpreted through a contemporary visual language.
