## | HARSHITA JHAMTANI OBJECTS |

At Harshita Jhamtani Designs, we've always believed in crafting stories through light, furniture, and installations. Now, a new chapter unfolds—one that brings character, artistry, and playfulness into the everyday.

HJO is a collection of sculptural objects that blur the line between art and function. Rooted in the same philosophy of craftsmanship, each piece sparks joy, invites curiosity, and turns simple moments into experiences. Because objects aren't just things—they live with us, move with us, and hold memories. They have personality, a quiet presence that shapes our spaces and moods. HJO celebrates that—designs that interact, express, and belong.

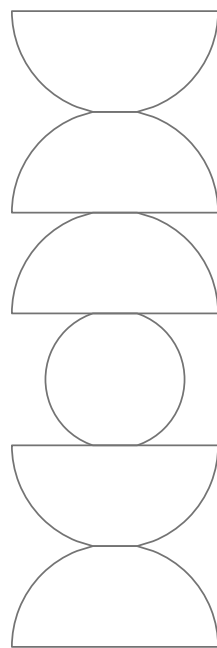

At the heart of HJO are Harshita Jhamtani and Aanchal Shah, united by a shared vision. Harshita, founder of Harshita Jhamtani Designs, has redefined furniture and lighting since 2019, blending sustainability with artistry. Aanchal, a lifestyle product designer from UID, Ahmedabad, has been an integral part of the studio for two years and now plays a key role in shaping HJO with her keen eye for form, materiality, and playfulness.

From the grand to the intimate, from statement pieces to collectible objects—Welcome to a world where objects aren't just things, but stories waiting to be told.
